

We're Hiring: Senior Platform Engineer (Backend & DevOps)

Company: WaTheta

Job Location: On-site

Employment Type: Full-time

Experience Required: 7+ Years

We're looking for an experienced **Senior Platform Engineer** to lead our server infrastructure, backend architecture, and DevOps operations while providing technical leadership to our engineering team.

Your Primary Focus

You'll be responsible for:

- Designing scalable backend architecture
- Managing production infrastructure
- Leading DevOps strategy and deployments
- Building complex backend modules when required
- Reviewing backend implementations and technical designs
- Guiding developers in implementing business logic
- Solving complex engineering challenges
- Improving system performance, reliability, and scalability
- Establishing engineering best practices

Technology Stack

You'll work with modern technologies including:

Backend

- NestJS
- Node.js
- TypeScript
- Fastify
- MongoDB
- Redis
- BullMQ
- REST APIs

- Socket.IO
- Meilisearch

Frontend

- Next.js
- React
- TypeScript
- Tailwind CSS

Infrastructure

- Docker
- Docker Compose
- Kubernetes
- Linux Servers
- Caddy
- Cloudflare
- SSL/TLS
- CI/CD
- GitHub Actions

Platform

- Multi-tenant SaaS
- WhatsApp Business API
- WooCommerce Integration
- Event-Driven Architecture
- Background Workers
- Real-time Messaging
- Automation Engine

Architecture Knowledge

Strong understanding of:

- Microservice Architecture
- Event-Driven Systems
- Distributed Systems
- Multi-Tenant SaaS

- Horizontal Scaling
- Queue-Based Processing
- High Availability
- Security Best Practices

We're Looking For Someone Who

- Has **7+ years** of professional software engineering experience
- Has managed production infrastructure at scale
- Can confidently make architecture decisions
- Enjoys solving complex engineering and scalability challenges
- Can mentor developers and provide technical leadership
- Has excellent communication and collaboration skills
- Takes ownership of platform stability, performance, and long-term technical direction

How to Apply

Please send your **CV/Resume** along with:

- GitHub Profile (if available)
- LinkedIn Profile (optional)
- Portfolio or Personal Website (optional)
- A brief introduction highlighting your relevant experience
